

COMMUNITY REACH CENTER

{ STAGES SUB-ACUTE FACILITY

About Stages

- A 15,000 square foot 16-bed sub-acute adult residential treatment facility. Single story design supports easy maneuverability for individuals with mobility challenges, and features unobstructed sight lines to residents in all areas of the facility.
- Ideal treatment setting for anyone whose illness has advanced to where they are at risk of psychiatric hospitalization, or who is soon to discharge from the hospital and would benefit from a short period of residential services in a community setting.
- Average length of stay is 10 to 14 days.

Staffing

The facility is staffed by more than 20 mental health professionals, including:

- Psychiatrists
- Therapists
- Clinicians
- Admissions and discharge coordinators
- Case Managers
- Registered Nurses

Benefits to the Consumer

Sub-acute care is a less costly and less restrictive treatment option than hospitalization. Residents receive an individualized treatment package tailored to meet their needs that includes peer support and case management to maintain ongoing recovery after discharge.
