FOR IMMEDIATE RELEASE

Community Reach Center purchases Broomfield Pediatrics

(Feb. 25, 2020 – Broomfield, CO) Effective March 1, Community Reach Center will assume operations for Broomfield Pediatrics, 3301 W 144th Ave. Suite 200, Broomfield.

Dr. Nancy Greer opened the Broomfield Pediatrics practice in partnership with Centura Health in 1997, after completing her residency at Children’s Hospital Colorado. Soon thereafter, Dr. Greer purchased the practice from Centura and became sole owner.

Throughout her career, Dr. Greer developed a passion for the care of special needs children and experienced the challenges of integrating care among primary care providers, specialists and therapists at different locations for some of her patients. Her relationship with Community Reach Center formalized last fall when Broomfield Pediatrics contracted with a therapist from Community Reach Center to provide on-site behavioral health assessments and services for her patients as needed.

“We will continue to operate under the name Broomfield Pediatrics, as the practice has been known for 22 years, and continue to provide the same high-quality care and family atmosphere that we have been known for. Joining Community Reach Center’s care continuum establishes Broomfield Pediatrics as a unique provider of integrated pediatric care, which brings significant additional benefit to our children and families,” Dr. Greer said.

In 2008, Community Reach Center became one of only five mental health providers in the U.S. to fully integrated pediatric primary care into their care continuum with the purchase of Mountainland Pediatrics in Thornton.
“We are extremely honored that Dr. Greer has entrusted Broomfield Pediatrics to our oversight,” said Community Reach Center CEO Rick Doucet. “Dr. Greer has earned a reputation in Colorado as an outstanding pediatrician with a genuine commitment to integrated care. We are excited to expand our pediatric care continuum to include Broomfield Pediatrics and welcome her outstanding providers to our staff.”

Community Reach Center is a top-tier non-profit behavioral health and wellness provider established in 1957 that serves people of all ages at seven outpatient offices and more than 100 community-based sites throughout Adams and Broomfield counties in Colorado. The Center employs more than 500 highly skilled professionals committed to health and wellness, currently serving 22,000 individuals annually.

It is one of the first community mental health providers in the U.S. to incorporate pediatric primary care into its care continuum, at Mountainland Pediatrics in Thornton, Colorado. Community Reach operates the first and currently largest school-based therapy program in the state. It is the first mental health provider in Colorado to receive accreditation for several programs from the Commission on Accreditation of Rehabilitation Facilities – an independent, nonprofit accreditor of health and human services.

The Center’s comprehensive care continuum includes all supportive services necessary to help children and adults achieve and sustain wellness. Services include case management, peer support, care navigation, school-based services, residential treatment, vocational services, medical services, substance use disorders treatment, 24/7/365 emergency services, in-home services and a broad, diverse array of outpatient individual and group treatment modalities that are evidence-based, feedback-informed and trauma-informed. In support of the center’s mission to “enhance the health of our community”, Community Reach Center provides no-cost Mental Health First Aid courses and other educational offerings throughout the north metro Denver area.
